Annual Per Capital Disposal

Employees

Total Number of Employees: 3240

Explain who was included in this number and how was this employee number calculated.

What was included in the total number of employees number was was our Executive, Administration, Highways Construction, Design East, Design Services, Design North, Design South, Environmental Planning & Engineering, External Affairs, Operations, Program / Project Management, Right Of Way, Transportation Planning, Local Assistance, and Maintenance number.

The number was calculated from our Position On Board Report that comes from our Budgets office.

Non-Employee Population

Total number of non-employee population: 1039

Population Type: Visitors

How was this population number determined?

This was calculated from our Visitor log in sheets from our security personnel.

Disposal

Total amount disposed: 21,057.42 tons

Total transformation: 0.00

How was this disposal number determined?

The disposal number was calculated from Solid Waste Disposal & Recycling Reports from maintenance and constructions projects that occurred during the calendar year 2018. These are filled out by the Resident Engineers for each project. What is also included in the disposal number No transformation was recorded in any of the documents.

Annual Results

	<u>Employee Population</u>		<u>Non-Employee Population</u>	
	<u>Target</u>	<u>Annual</u>	<u>Target</u>	<u>Annual</u>
Per capita Disposal Rate (pounds/person/day):	56.40	35.61	0.00	111.05
Per Capita Transformation Rate:	11.30	0.00		
Calculated Disposal Rate (pounds/person/Day):	--	35.61		

Questions

What types of waste are still thrown away (not reused, recycled, or composted)?

The types of materials I see the most being diverted to landfills is mixed debris (brick, stone, asphalt, insulation, drywall, etc). Also wood cleared vegetation tends to be taken to landfills as well.

What difficulties or obstacles have you had with finding ways to recycle, reuse or compost these types of wastes?

Most recycling companies do not have a market for recycling asphalt and concrete debris

Programs

Recycling

- Beverage containers
- Glass
- Plastics (#3-7)
- Cardboard
- Newspaper
- Office paper (white)
- Office paper (mixed)
- Confidential shredded paper
- Copier/toner cartridges
- Scrap metal

This report summary displays the report information as submitted by the agency. To see the final report after any corrections made during the CalRecycle staff review please see <https://www2.calrecycle.ca.gov/StateAgency/WasteMgmt/AnnualReports>

Page 22 of 65

At District 4, white paper, mixed paper, beverage containers, cardboard, and beverage containers were recycled by the vendors Republic Services and . Toner cartridges, computers, printers, harddrives are recycled by DGS small business vendor by the name of Hi -Tech Recycling. Hazardous materials like used batteries are recycled by a vendor called AERC Recycling. Another form of Hazardous material is fluorescent light tube recycling handled by DGS Small business vendor Omega Pacific. At some of the smaller field offices, the employees are encouraged to recycle the above-mentioned materials. For example we have deployed Battery recycling containers to field offices similar to the ones given employees in the District Office. Another source of material that Caltrans generates is a result from our construction and maintenance projects. This construction and demolition (C & D) waste debris can vary in type and amount depending on project description and location. Typical C & D waste debris may include concrete, asphalt, steel, and guard railing. Other types of materials that are generated by the Department are a result of the fleet of vehicles owned by Caltrans. Some of these materials include motor oil, engine lubricants, anti-freeze, tires, and solvents. Even though these waste materials do not count towards AB 75, they still do get recycled.

Material Exchange

Nonprofit/school donations
Internal property reutilizations
State surplus (accepted by DGS)

We have a Property Control division that facilitates furniture reutilization internally within the district and donation to nonprofit entities.

Waste Prevention/Re-use

Reuse of office furniture, equipment & supplies
Double-sided copies
Email vs. paper memos

N

Green Procurement

Recycled Content Product (RCP) procurement policy

Page 23 of 65

The mixed paper recycling program we have at District 4 employs miniature recycle bins given to each employee. Each of these plastic blue bins are made up of recycled content material. Also over the years, the Department has undergone a significant move to lower emissions from our vehicles. Caltrans has termed this Greening the Fleet??More information on this can be found at <http://www.dot.ca.gov/hq/eqsc/CleanAir/greenfleet.htm>.

Training and Education

Signage (signs, posters, labels for recycling bins. Existing or implemented by July 1, 2018)*
Web page (intranet or internet)
Brochures, flyers, newsletters, publications, newspaper articles/ads
Office recycling guide, fact sheets

Our mixed paper, beverage container, battery and other recycling programs all employ media informing our employees of these programs and which materials are to be placed in designated containers for recycle. This is in the forms of flyers, district emails, and a web page which may be accssed through our intranet site

Organics

Organic Materials Generated at this location:

Food Scraps
Food Soiled Paper

Page 24 of 65

Reuse and Waste Prevention Programs for these materials:

Other	Bernardini Enterprises Inc. takes care of our food scraps recycling by providing us with a compactor which they service on a monthly basis. Also cooking oils are recycled by a vendor called Sirona Fuels which provides us with a 50 gallon drum that they collect when full. The company then turns this into bio-diesel fuel.
